**Domestic Cantilever Umbrellas are not designed to be left up when unattended.**

**Domestic Cantilever Umbrellas do not carry any wind rating and are not built to withstand strong winds or rainy conditions. Domestic umbrellas are not designed for commercial use or for use in exposed environments such as high balconies or rooftops.**

**Failure to let the umbrella down during rainy/windy conditions or when the umbrella is unattended will void the manufacturer's warranty.**

**Excessive wind conditions can cause great stress and damage to the umbrella frame as well as danger to people and nearby surroundings.**

# HEAVY DUTY WIND RATED CANTILEVER UMBRELLAS

Wind Rated Cantilever Umbrellas feature a side pole which allows more freedom of movement under the umbrella and also gives the user the handy option of being able to rotate the umbrella 360° to move the shade. Wind Rated Cantilever Umbrellas also feature tilting options to enable shade to be directed to different areas without having to move the umbrella itself.

Wind Rated Cantilever umbrellas are available in various models from 2.5m up to 5m in diameter and carry a wind rating of up to 100 km/hr, depending on model.

Wind Rated Cantilever Umbrellas are built using materials of the highest quality and strength. Wind Rated Cantilever Umbrellas are designed to be installed permanently however the umbrella can be removed if need be.

Excessive wind conditions can cause great stress and damage to the umbrella frame as well as danger to people and nearby surroundings.

# HEAVY DUTY WIND RATED CANTILEVER UMBRELLAS

Super Shade Wind Rated Cantilever Umbrellas feature a side pole which allows more freedom of movement under the umbrella and also gives the user the handy option of being able to rotate the umbrella 360° to move the shade. On the Super Shade Cantilever Umbrella the side pole is much stronger however the canopy stays out from the umbrella when wound down. Super Shade Wind Rated Cantilever Umbrellas are built using materials of the highest quality and strength. Wind Rated Cantilever Umbrellas are designed to be installed permanently however the umbrella can be removed if need be.

Excessive wind conditions can cause great stress and damage to the umbrella frame as well as danger to people and nearby surroundings.
