CENTRE POST UMBRELLAS

The Shade Centre sells a wide variety of Aluminium and Timber Garden, Courtyard, Market and Wind-Rated "Centre Post" Umbrellas, Bases and Accessories to suit.

DOMESTIC CENTRE POST UMBRELLAS

Domestic Centre Post Umbrellas do not carry any wind rating and are not built to withstand strong winds or rainy conditions.

Domestic Umbrellas should not be left up when unattended.

Excessive wind conditions can cause great stress and damage to the umbrella frame as well as danger to people and nearby surroundings.

Failure to let the umbrella down during rainy/windy conditions or when the umbrella is unattended will void the manufacturer's warranty.

These umbrellas are not stock items and take approx 1 week to get into our store

Shelta Manufacturers Warranty

In all cases the Shelta Warranty excludes normal wear and tear, wind damage, commercial use, use of unreasonable force, failure of reasonable care, failure of maintenance (as set out in detail for each product) and incorrect assembly by the customer.

Leaving umbrella open in windy conditions, voids the warranty.

The Shelta Warranty applies only to the original purchaser from the purchase date, and only covers manufacturing faults or defects which occur in normal domestic use.

Where a claim is made pursuant to the Shelta Warranty, Shelta Australia will, at their discretion, repair, refinish, replace or replace with a similar product.

In the event of a Shelta Warranty Claim, please return the item to the store where purchased along with the original tax invoice. If you cannot return the item to the store where purchased, contact the retailer you purchased the item from.

Purchaser must provide all details (written and photographic) of the problem with the product for Shelta to determine whether the Shelta Warranty Applies.

Umbrella Safety

The umbrella must be lowered when unattended or in gusty or breezy conditions. Wind puts great stress on umbrella frames which can cause damage to the umbrella and danger to people.

This umbrella is not recommended for use in exposed environments, such as high balconies or roof tops. Please follow instructions carefully when installing and opening.

TIMBER FRAME DELUX MARKET UMBRELLAS

Terrazzo Delux frames are manufactured from plantation grown Saligna hardwood. The natural beauty of the timber is enhanced by a protective clear lacquer. The Terrazzo Delux Collection features clean and durable stainless steel hardware, including rib ends, spiders, lower pole sleeves and pulley systems. There is a wide range of colours in tough Sunbrella acrylic canvas.

Shelta Umbrella Care

SAFETY:

Shelta umbrellas are not permanent shade structures and must be lowered when unattended or in windy conditions. Excessive wind puts great stress on the frame, which can cause damage to the umbrella and danger to people. Shelta domestic umbrellas are not recommended for exposed environments such as high balconies or roof tops. Please carefully follow the installation instructions provided with the umbrella; if in doubt, consult a qualified trades-person. Only use recommended Shelta bases or anchoring systems.

CARE:

When not in use, close the umbrella and cover with a Shelta Easireach Cover. Before storing, make sure the umbrella is dry and keep in a dry, shaded location.

Fabrics may be treated with a fabric protector such as 'Scotchguard' for additional protection. Soiling can be minimised by simply brushing off dirt before it becomes embedded in the fabric or spot cleaning soon after stains occur.

To clean umbrella canopies, lightly brush the open umbrella with a mixture of mild detergent and warm water. Rinse thoroughly and leave the umbrella open until completely dry.
