## **CLEVACOVER CLOTHESLINE COVERS**

The elements no longer dictate when clothes need to be removed from the line. Considering the substantial cost of clothing and linen hung on clotheslines, the CLEVACOVER will pay for itself many times over by preventing the most detrimental deterioration of the garments such as;

- Colour fading from the sun
- Colour dilution from the rain
- Fibre deterioration from sun and rain
- Savings through reduced use of the clothes dryer
- Airborne contaminants including
  - Bird and bat droppings
  - Foliage fallout

All CLEVACOVER's are made using a UV Stabilised Heavy-Duty Polyfabric and comes with a 12-Month (Limited) Manufacturer's Warranty against manufacturing defects.

CLEVACOVER's are easily fitted to new or existing clotheslines without the use of tools.
