WALL KIT ATTACHMENT INSTRUCTIONS

NB

~ You will require 4 wall kits to enclose the entire 3.0 x 3.0m Gazebo and 6 wall kits to enclose the entire 6.0 x 3.0m Deluxe Pavilion.

~ On some Gazebo models the walls will not touch the ground when the Gazebo is set to the maximum height.

Step 1

Assemble the 3 section pole and slide it gently through the pole sleeve that runs along the top of the wall.

Step 2

Using the claps at each end the pole, connect the claps firmly but not tight to the leg upright at approximately halfway up the leg. Checking the hooks on the bottom corners of the wall can reach and attach to the leg feet.

Step 3

Now attach the hooks to the feet and gently re-adjust the claps to make the wall sit neatly. Make sure the claps are firm but not tight.

Step 4

Locate the Velcro® tabs on the wall, found just below the pole claps. Secure the wall kit to the legs of the Gazebo using these Velcro® tabs.
