## **MASTERSHADE UMBRELLA CARE AND MAINTENANCE**

### **Care and Maintenance**

This is a low maintenance umbrella, however, we recommend the following to assist in continuing smooth operation.

#### **Frame :**

- 1 Apply small amount of light oil to all rollers, shafts and threads.
- 2 Check all nuts and bolts are tightened.
- 3 Polish frame with car polish. Wax only.

#### **Canopy :**

The manufacturer of the fabric recommends that you brush any dust from canopy with soft brush, then hose off. Allow to dry, before brushing off again. Dust left on the canopy for lengthy periods of time could cause mildew spores to grow. We recommend that a Pacific Shades umbrella cover be purchased to protect the umbrella if stowed for lengthy time periods.
